

GLUTEN FREE MIXES

Homemade Gourmet's gluten free products do not contain any of the FDA identified gluten ingredients. However, these products are manufactured in a plant with products that do contain gluten. Please see a copy of our Allergen Control and Sanitary Practices statement in the product FAQs section of our website. Gluten free is determined by the contents of the mix only - attention will need to be paid to the add in ingredients required and adjustments may be necessary to retain gluten free status in some recipes.

Some products are seasonal and therefore may not be available throughout the year. However, we recognize that you may have this product in your home kitchen and we want to make this list fully effective for you. * Indicates mixes that are no longer available for purchase.

This document is meant as a guide to ingredients and does not represent official labeling requirements of the FDA. Our information is based on what is provided to Homemade Gourmet® by manufacturers. We strive to make this list as accurate as possible. If you have an allergy please refer to the product label.
